

Hand protecting  
the safe way!

## Size table for protective gloves

	<u>5</u>	<u>6</u>	<u>7</u>	<u>8</u>	<u>9</u>	<u>10</u>	<u>11</u>	<u>12</u>
Size	<u>XXXS</u>	<u>XXS</u>	<u>XS</u>	<u>S</u>	<u>M</u>	<u>L</u>	<u>XL</u>	<u>XXL</u>
Length (mm)	163-169	169-176	176-185	185-194	194-203	203-212	212-219	219-226
Scope (mm)	183-189	189-196	196-205	205-214	214-223	223-232	232-241	241-250

Length: The measurement from the first crease of the wrist to the top of the middle finger.

Scope: The measurement around your hand just below the knuckles

### Info:

A firefighter's glove should have an air cushion between the hand/finger and the glove itself.

A technical glove, on the other hand, should be close-fitting for optimum tactility.
