

INSTRUCTIONS FOR USE

REBEL35 BIOACTIVE

GUIDE INFORMATION FOR USE

MODEL: REBEL35 BIOACTIVE

PERFORMANCE DATA

The protection of man and his most valuable tools - his hands - were the focus of the development and certification of the REBEL. We have succeeded in combining highest wearing comfort (by processing supple nappa leather in a turned version) with extreme cut resistance (by using a high cut resistant KEVLAR® and stainless steel knitted fabrics). Annual inspection of production, safety & pollutants according to the German Equipment and Product Safety Act (GPSG).

APPLICATION

Check that the gloves offer sufficient protection for the work you have to do. Choose a Pair of gloves according to your hand size. Note Observe the following points when using the gloves:

1. the glove does not protect against chemical and bacteriological dangers.
2. do not use these gloves near machines with rotating parts, otherwise your hand into the machine.
3. oil, grease and moisture reduce the resistance to cutting, increase the combustibility of all gloves and should can thus be avoided.

TECHNICAL DATA

		RESULT
Abrasion resistance		4
Cut resistance		4
Tear resistance		4
Stitch Strength		4
TDM: Cut		E
Burning behaviour		LS 4
Contact heat		LS 1
Convective heat		LS 3
Radiant heat		LS 2
Resistance to small drops of molten metal		LS 4
Resistance to large quantities of molten metal		X

Welding glove according to EN 388:2016 + EN 12477:2001+A1:2005

- Palm made of turned cow grain leather
- Palm with double-sided knitted 43% KEVLAR® / 37% polyester / 20% glass fiber)
- Cow split leather back of the hand with internal elastic band
- Antimicrobial lining (trevera® BIOACTIVE) on the back of the hand
- Double seams
- Approx. 14cm long split leather cuff
- Total length approx. 35cm
- Category II to EN 388:2016

GUIDE INFORMATION FOR USE

CERTIFICATION

Notified certification body for personal protective equipment:
(PSA): TÜV Rheinland LGA Products GmbH
Tillystr. 2
90431 Nürnberg
NB 0197
Test report no.: BP 60133561 0001

GLOVE SIZES

The glove sizes correspond to the application.
The gloves cover the hand and, depending on the cuff length, parts of the forearm.

STORAGE

The gloves should be stored in their original packaging in a dry, clean place. Avoid exposing them to moisture or high temperatures

LIABILITY

We accept no liability for damage caused by the non-targeted use of the PPE or by any use that does not comply 100% with the instructions for use given below. Please contact the manufacturer for further information regarding care instructions, repair and safe dis-posal methods.

WASH INSTRUCTIONS

according to washing expert opinion Lars Reuter
(Master Textile Cleaner, Hamburg)

DECLARATION OF CONFORMITY

The declaration of conformity for this protective glove can be found at: www.penkert.com

CLEANING INSTRUCTIONS

Please take the following from the sewn-in identification label

GENERAL INFORMATION

The results stated in the test report are based on laboratory tests carried out exclusively on unused gloves.
A transfer of the results to gloves according to Care treatment requires the performance of appropriate tests.
The glove offers protection against piercing with pointed objects as defined in DIN EN 388:2016, but there is no protection against pointed objects such as hypodermic needles.
The glove provides some protection in case of accidental contact with chemicals, but it is not a protective glove against chemicals and micro-organisms in the sense of EN ISO 374-1:2016+A1:2018.

CHECK

An optical check for dirt and damage is essential. Damaged gloves must be discarded. The expiration time depends on the degree of wear, use and area of application.
The clothing has a shelf life of at least 5 years from the date of manufacture. Non-compliance with the notes/regulations listed in this manual and individual stress during use may reduce the durability of PPE.
